OBJECTIVE

I want to enter the Game Design a Development world, to create games for others to enjoy. As long as I am creating games, I will be willing to work as hard and as long as I need to, to complete the project.

EXPERIENCE

88.9 FM WSTB Streetsboro , Ohio January 2014 - June 2016

Program Director

- As the Program Director for WSTB my job was to listen to all 30 DJs on the station, and give them an evaluation. These evaluations were done every other month, to let DJs know what they where doing wrong, and what they were doing great.

INTERESTS

I am very interested in the study of Evolving Neural Networks through Augmenting Topologies. The idea of watching a species evolve to the point of completing a task is quite unique.

I had an interest in being a DJ or a public speaker, since I spent two years on a radio station as a DJ. It was enjoyable when people would call in and just talk to them over the topic of music.

My last major interest is drawing, and creating different art. I was originally going to college to become a graphic designer, but I don't enjoy drawing every day, only occasionally.
